

5.

i. Seals

a. Original

b. Resized

c. Resized II

d. Parameters: Reduce width by 250 and height by 185

e. Explanation: The seam resizing took away the least important seams in both vertical and horizontal directions. But regular resize might have stretched the image.

- ii. Groceries
  - a. Original

- b. Resized

- c. Resized II

- d. Parameters: Reduce width by 400
  - e. Explanation: The seam resizing took away the least important seams in both vertical and horizontal directions. But regular resize might have stretched the image.
- iii. Trees
- a. Original

- b. Resized

- c. Resized II

- d. Parameters: Reduce width by 300 and height by 175

- e. Explanation: The seam resizing took away the least important seams in both vertical and horizontal directions. But regular resize might have stretched the image.

iv. Sino

- a. Original (500x500)<sup>i</sup>

- b. Resized

- c. Resized II

- d. Parameters: Reduce height by 300

- e. Explanation: The seam resizing took away the least important seams in both vertical and horizontal directions. But regular resize might have stretched the image.

v. NewImg2

- a. Original (800x1335)<sup>ii</sup>

b. Resized

c. Resized II

d. Parameters: Reduce height by 800

- e. Explanation: The seam resizing took away the least important seams in both vertical and horizontal directions. But regular resize might have stretched the image.
- vi. City
  - a. Original (800x267)<sup>iii</sup>

- b. Resized

- c. Resized II

- d. Parameters
- e. Explanation: The seam resizing took away the least important seams in both vertical and horizontal directions. But regular resize might have stretched the image.
